

Hundreds experience
freedom
from laundry chores

The Fabric Spa Busy Easy road show organised at Deja View Apartments and Manipal Center gave hundreds of eager people a chance to experience world-class laundry at their doorstep. And also win exciting rewards by partaking in games and activities conducted along.

TIPS FOR MEN'S FASHION

Fashion has different definitions for different individuals. For some it's following the latest trends and styles, and for some it's more about their own style and apparels. Here are some general fashion tips you can get inspired from:

Don't Chase Brands

It makes no sense to desperately run after branded apparels, if they don't suit you. While purchasing branded items, check if they really suit you and that you are not just buying them because they are so much in "trend" or "style".

Size Matters

Clothing must be worn according to fitting is the first cardinal rule of fashion. Skinny and lean men must wear comfortable clothing, not large than their size. Fat men, on the other hand, must not wear very tight T-shirts and shirts as that will highlight their bumps and extra muscle areas.

Shoes Make the Man

A shoe mirrors a man's personality. So having a nice pair of shoes in the wardrobe is a must. One should keep them clean and tidy always. And in case of sports shoes, wash it frequently. For formal shoes, polishing it before wearing it is essential.

Experimenting is Inventing

Experiments are not always risks. And sometimes can create an altogether different look. Trying a different hairstyle, trying out various dressing styles, and complementing it with a good dressing sense, can add to one's personality.

Fabric Spa. The world-class experience keeps growing.

Fabric Spa takes a bow at HSR Layout.

The professional touch of Fabric Spa is what your clothes truly need. After all no other laundry can boast of giving a world-class laundry experience like Fabric Spa does.
